

30.05.2024

To Whom It May Concern,

I am pleased to announce that Inyati Private Game Reserve has made a significant investment in renewable energy by constructing a solar power and battery energy storage system that can run the entire lodge.

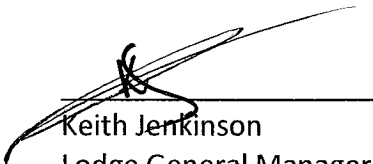

JNTM Solar Specialists did an outstanding job with this project. Their expertise and dedication ensured the seamless operation of our solar power system. JNTM's careful approach to integrating the electrical and software control systems has resulted in a reliable and efficient setup. JNTM also maintained a clean and safe work environment and complied with all certification requirements. Their support continued beyond the installation, ensuring everything runs smoothly.

This clean energy source is now powering the lodge, greatly reducing our carbon emissions.

Thanks to JNTM, our guests can now enjoy clean and quiet energy, and our environmental impact is minimized.

We highly recommend JNTM Solar Specialists for their professionalism and expertise.

Sincerely,

Keith Jenkinson
Lodge General Manager
Inyati Private Game Reserve
