To Whom It May Concern,

I am writing to express our appreciation for JNTM Solar Specialists and their exemplary work on the installation and optimization of the Battery Energy Storage System (BESS) at VR Steel.

From the outset, JNTM demonstrated a strong commitment to ensuring the optimal performance of our BESS and understanding its behavior in real-world applications.

JNTM managed to program the BESS to handle changes in load efficiently, consistently showing up during the BESS's start-up phase and addressing any initial issues that arose.

JNTM's technical expertise and hands-on approach have made a significant positive impact on our operations. They have been a reliable partner, ensuring that our BESS functions optimally and adapts to our evolving needs. Their support has been invaluable, and their professionalism is commendable.

I highly recommend JNTM Solar Specialists for their outstanding service and commitment to excellence.

Sincerely,

Jaco Greeff  
Managing Director
